## COMPANY OVERVIEW

National Cleaning Company is the mother company of **GREEN TECHNOLOGY PROTECTION**, was established in 1979 with the purpose of providing a professional and dependable cleaning service in Kuwait. Since our humble inception 32 years ago with a couple of dedicated and enterprising individuals; we have grown into a major share holding company with a multinational workforce exceeding 13000 and equipped with over 2500 specialist machineries to support our business. Along with the 14 fully owned and managed subsidiary companies, we are a major Waste Management Company in GCC.

**GREEN TECHNOLOGY** is an Abu Dhabi based Company, specialized in design, execution and maintenance of Hardscape, Soft Landscape and Irrigation works. The partnership provides for any professional and fruitful undertaking of all types of works to satisfy our Client base.

The main objective of **GREEN TECHNOLOGY** includes the following:

1. Provide constructing and maintaining of parks and landscape design and planning activities, ranging from residential through to large scale municipal projects.
2. Design and install irrigation systems, including fully- automated and highly efficient systems to minimize water consumption.
3. Design and execute innovative, cost effective and environmentally – friendly landscapes suitable for both the unique needs of our client and the climate.
4. Build, operate and manage greenhouses and garden centers for production of ornamental and agricultural plants and other related requisites.
5. Develop and execute forestry projects and green belts to increase the green areas in and around cities and communities in the UAE.
6. Provide a full range of pest control management services, including provision of services to sensitive locations and 24- hour call out service.
7. Provide a full range of environmental consulting services pertaining to organic agriculture, waste minimization, energy efficiency, water conservation and horticulture.
8. Design and install fences and barbed wires works using top quality materials to fully satisfy the needs of each client.

**GREEN TECHNOLOGY** offers a broad range of landscaping, pest control and related consulting services which are focused on enhancing the quality of life for the people of UAE and other countries in which we operate.

**GREEN TECHNOLOGY** is committed to improve and enhance the quality of life and the environment for the people of Abu Dhabi, the United Arab Emirates and all other countries in which we operate.

**GREEN TECHNOLOGY** aim to become the UAE's leading provider of quality solutions for landscaping, Irrigation Works and pest control in the outside living environment.

**GREEN TECHNOLOGY** aims to provide our clients with professional, timely and quality services.

## LANDSCAPING

Our Landscape Division can carry out all aspect of the design and execution of contemporary landscapes. Specifically, both soft and hard landscape that meets the unique needs of each client, while at the same time is in harmony with both the lifestyle and climate of the UAE. We strive to ensure that our designs and project executions are done to meet the highest industry standard. Our international and local staffs have both the knowledge and practical experience to meet the demands and desires of all of our clients, including homeowners, urban developers and municipal managers. Our project engineers work closely with each client, from start to finish, to ensure each project is completed in a timely and professional manner and that the clients' expectations are fully realized in the final landscape.

P. O. Box: 108682 Abu Dhabi, UAE, Tel: + 971 2 445 5700; Fax: + 971 2 4455754

website: [www.greentechology.ae](http://www.greentechology.ae), email: [info@greentecuae.com](mailto:info@greentecuae.com)

## **FORESTRY**

Green Technology has qualified professionals to design and execute forestry and green belt projects.

The goal of these types of projects is to establish and maintain various trees and vegetation in and around cities and communities that are desert tolerant with minimal maintenance requirements.

## **IRRIGATION**

Our Irrigation Division focuses on the design and execution of state-of-the-art irrigation systems that are suitable for all clients. Such systems typically incorporate all components of a reliable irrigation network-including automated controllers, piping, valves and orifices.

We cater to crops, vegetables, landscaping plants and ornamentals. And we incorporate to the extent possible the most modern and efficient systems that will provide optimal coverage while at the same time conserve water. We only include components of the system that are highly durable in order to ensure both longevity and low maintenance.

## **GREENHOUSES & GARDEN CENTERS**

Our vast experience in greenhouse construction and our specialized marketing network makes Green Technology the company of choice for design, construction and/or operation of greenhouses and garden centers in the UAE.

Our greenhouses are designed for the unique climatic requirements in the UAE and for the expanding needs for plant production, nurseries and garden centers.

We utilize state-of-the-art instruments and techniques in the all types of greenhouses to optimize all aspects of operation.

These projects have many benefits in addition to aesthetics; for instance, they also serve to minimize dust, improve air quality, and provide habitat to numerous animals.

**P. O. Box: 108682 Abu Dhabi, UAE, Tel: + 971 2 445 5700; Fax: + 971 2 4455754**

**website: [www.greentechology.ae](http://www.greentechology.ae), email: [info@greentecuae.com](mailto:info@greentecuae.com)**

## **PEST CONTROL**

Our Pest Control Division is experienced in the eradication of various domestic, agricultural and industrial infestations.

We provide a full range of consultancy, maintenance and contracting services to all sectors, including sensitive locations and 24-hours emergency call-out service.

We utilize eco- friendly, biodegradable chemicals and trap in our treatments which fully comply with all local regulations and international best practices.
